

Thank you for downloading TurboTed's First Capital Connect Class 700 Desiro City reskin.

You are required to own the Thameslink BR Class 700 EMU Add-on from Steam:

[https://store.steampowered.com/app/1804515/Train\\_Simulator\\_Thameslink\\_BR\\_Class\\_700\\_EMU\\_AddOn/](https://store.steampowered.com/app/1804515/Train_Simulator_Thameslink_BR_Class_700_EMU_AddOn/)

### Installation

In this process, it is recommended to make a backup of your Train Simulator installation in case any errors are made.

- 1) Navigate to your RailWorks folder located at:  
'C:\ProgramFiles(x86)\Steam\SteamApps\Common\RailWorks'. This should be the default for Train Simulator unless you've set Steam to install the game in a different location. You'll need to remember this for step 4. It is useful to create a shortcut if you use this folder frequently.
- 2) Then go to: ...RailWorks\Assets\DTG\Class700Pack01. In this folder, you'll need to unzip the 'Class700Pack01.ap' file using WinRar, 7-zip or other software unless this has been done already.
- 3) Next, navigate to  
...RailWorks\Assets\DTG\Class700Pack01\RailVehicles\Electric\Class700.  
You'll need to copy and paste the 'Engine' folder in the same directory and rename the new copy 'Engine-FirstCC'.

- 4) You will now need to open the download package, copy the RailWorks folder from the download package and paste it in 'C:\ProgramFiles(x86)\Steam\SteamApps\Common'. This will ask you to overwrite the files, so you'll need to click 'replace the files in the destination'.
- 5) Once you have installed the reskin, open Train Simulator and set a quick drive scenario to make sure the reskin works. This can be found under 'Class 700' in the Quick Drive tab from the 'drive' button on the main menu.

**This reskin uses the destination list as used in the Thameslink livery. Please refer to the Thameslink BR Class 700 manual if necessary.**

### **Credits**

Thank you to Zico Azeez for making the First Capital Connect external decals.

### **Information**

This reskin is strictly not to be uploaded elsewhere unless permission has been granted. Content is allowed to be used in scenario creation or patches as long as the link <https://sites.google.com/view/turbo-ted/> is credited. However, content is not allowed to be used in payware content such as scenarios. If you are a creator, please do not use the link directly to the download or web page. :)

I don't take any responsibility for problems and/or damage any of my content causes, you install my content at your own risk. I don't offer support for installing any content available from my website or elsewhere.

You may not take credit for this reskin. All content has been created by myself (Ted Fuller as TurboTed) unless stated otherwise. It is prohibited to make changes to my content and redistribute them without my consent.

Whilst it's nice to hear how much you like my content, I don't currently accept requests or suggestions for any Train Simulator content. However from time to time, I may create stories on my Instagram account asking for your input.

If you find issues with any documents or files, please don't hesitate to let me know via social media linked on my website.
